A Shuruaat — GENZ Broker Network kya hai

Introduction · roles · join · app ka layout

Sab ke liye

GENZ Broker Network ek **invite-only** app hai (GENZ BUILDCON ka platform, Raipur se shuru). Isme **verified brokers** apni properties aur buyers ki zaroorat ek-doosre ke saath share karte hain, deal room mein commission likh kar pakka karte hain, site visit ka **OTP / QR proof** rakhte hain, aur agar koi broker ko chhod kar seedha deal kare (bypass) to uska poora record app mein hota hai.

A1 Paanch baatein jo hamesha yaad rakhein

#	Baat	Matlab
1	**Brokers ke liye free**	Abhi GENZ brokers se koi fee nahi leta. `GENZ Membership` page par hamesha likha rehta hai ki aap par kaun si fee lagti hai (abhi: "None"). Owner, buyer, connector aur employee par GENZ kabhi fee nahi lagata.
2	**GENZ deal ka paisa nahi pakadta**	Token, brokerage, partner ka hissa — sab paisa party se party seedha (UPI / bank) jaata hai. App sirf likhta hai: kitna, kisne, kab, UTR.
3	**Invite-only + KYC**	Har member ko invitation code se aana hota hai aur GENZ team KYC (PAN / Aadhaar / RERA) dekh kar hi approve karti hai.
4	**Har kaam ka record**	Listing, visit, offer, commission, close — sab `Activity Record` mein time ke saath likha jaata hai. Jhagde mein yahi proof hai.
5	**Hindi / English**	Upar `हिन्दी` button dabate hi poora app Hindi mein. Customer ke pages (client room, bill, QR form) Hindi + English dono mein hote hain.

A2 Kaun kya karta hai — roles

App mein jo dikhta hai woh aapke **role** par depend karta hai. Har role ka apna chapter is manual mein hai:

Property owner	Makaan / plot ka maalik	Apni properties, offers aur token, deal timeline, papers, approval	C
Buyer / Tenant	Kharidne / kiraye wala	Apni zaroorat, matching properties, site visit code	D
Builder / Developer	Project banane wala	Project control, channel partners, visit QR scan, CRM, launch	E
Contractor	Construction partner	Construction leads lena, referral fee	F
Legal counsel	Empanelled advocate	Title check, legal desk cases, land records	G

Bina login wale log

Aapka **client**, **dukaan wala partner**, QR scan karne wala **customer** aur **owner** — inhe app mein login nahi karna padta. Inke liye alag link wale pages hain (chapter **K**).

Listing se lekar brokerage ke bill tak, step by step

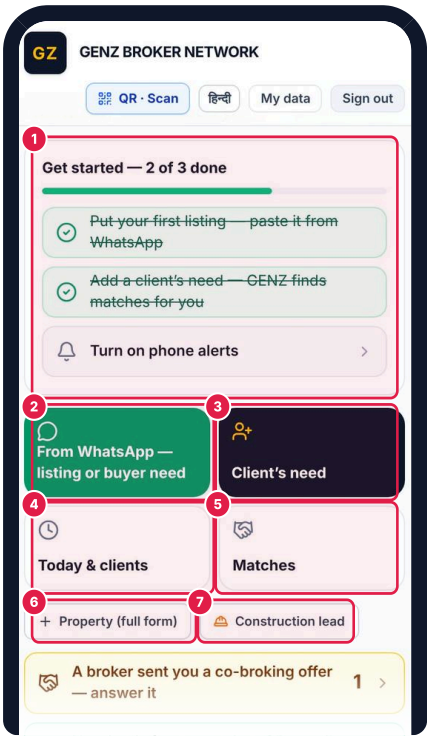

Role: Broker (verified)

App kholte hi yeh dikhta hai. Naye broker ke liye "Get started" list hoti hai; kaam poora hote hi woh line kat jaati hai.

1. **Get started** — teen pehle kaam: pehli listing, pehle client ki zaroorat, aur phone alerts chalu karna. Har line dabane par wahi screen khulti hai.
2. **From WhatsApp — listing or buyer need** — WhatsApp ka message paste karke listing ya buyer need banayein (sabse tez tareeka, B2 dekhein).
3. **Client's need** — apne client ki zaroorat (budget, ilaka, type) seedha form mein.

App khud title, type, ilaka, keemat aur area nikaal leta hai. **Koi bhi listing owner ki haan (consent) ke bina live nahi hoti.** Owner ki haan aapko **bypass protection** deti hai: protection ke din tak koi doosra GENZ broker wahi property list nahi kar sakta.

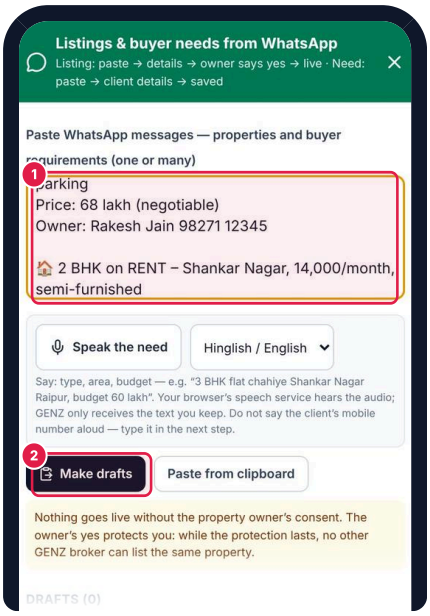

Paste → **Draft banta hai** → **Owner ka naam + mobile + brokerage** → **Owner ko link** → **Owner haan + sign** → **Publish → live + mandate ACTIVE**

Property screen

3. **Bypass protection** — 30 / 60 / 90 / 180 din. Itne din tak yeh customer aapse koi nahi chheen sakta.

> **Brokerage abhi na bharein to?**
> Listing phir bhi ban jaati hai, lekin **mandate nahi banta aur deal rooms band rehte hain**. Baad mein property card → **More ▾** → brokerage terms se bhi bhar sakte hain.

Chat aur legal madad

Broker Chat

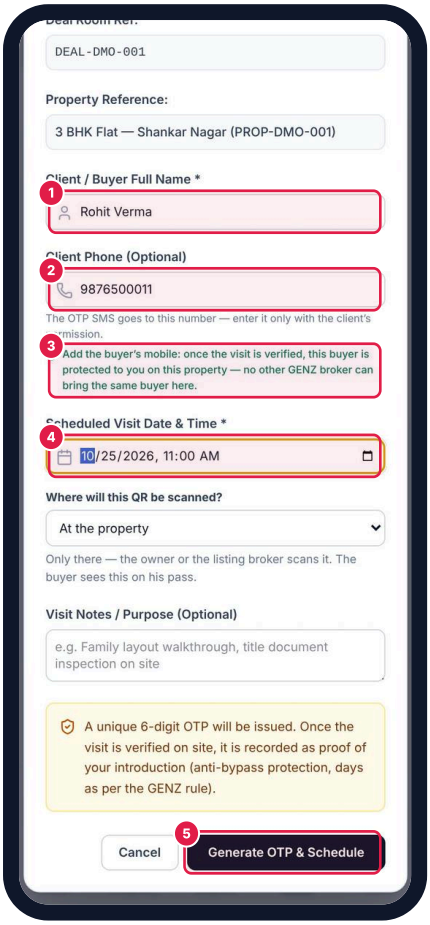

Legal Help

- Right — **Legal Help**: GENZ ke legal panel se madad — title check, agreement drafting, registry/stamp duty, land records, lease... State apne aap bharta hai. Pehle jo counsellor case le, woh fees quote karta hai; aap accept/decline karte hain. Counsellor aapka deal room kabhi nahi dekhta — sirf jo papers aap tick karein.

B10 Site visit — OTP / QR se pakka saboot

Site visit hi sabse bada saboot hai ki buyer **aap laaye**. Verified visit se aapko **buyer protection** milta hai: protection ke din tak koi doosra GENZ broker usi buyer ko usi property par na visit karwa sakta hai, na offer bhej sakta hai.

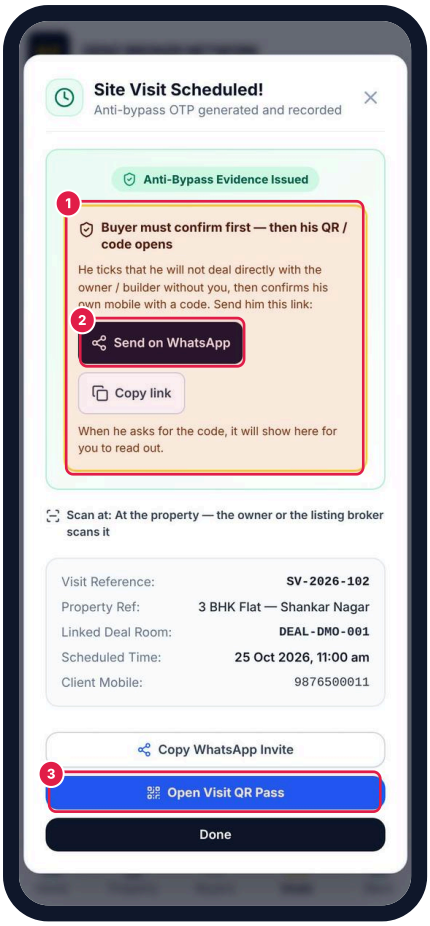

Visit book → **Buyer ko link** → **Buyer: "seedha deal nahi" tick + code** → **Buyer ko QR + code** → **Property par scan / OTP** → **Verified ✔**

Step 1: visit book karein

Deal room → **Schedule Visit**, ya property card → **More ▾** → **Book visit**.

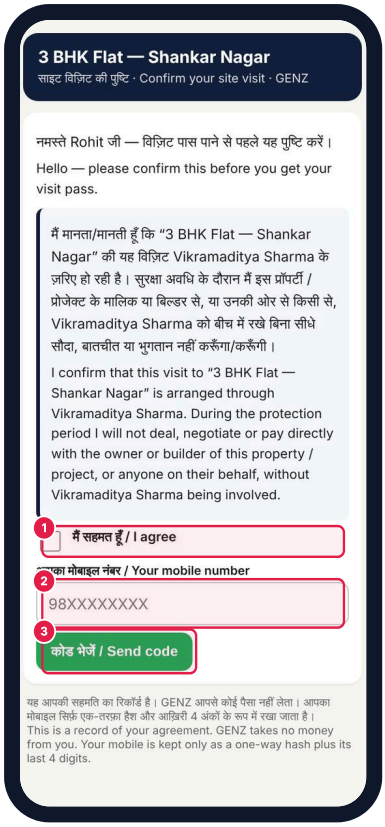

1. Buyer ka **poora naam**.
2. Buyer ka **mobile** — ise zaroor daalein.
3. Hara note: mobile ke saath verified visit = yeh buyer is property par aapke naam protected.
4. Visit ki **taareekh aur samay**. Neeche "kahan scan hoga" (property par owner ya listing broker scan karega).
5. **Generate OTP & Schedule** dabayein. Agar deal room nahi hai to apne aap ban jaata hai.

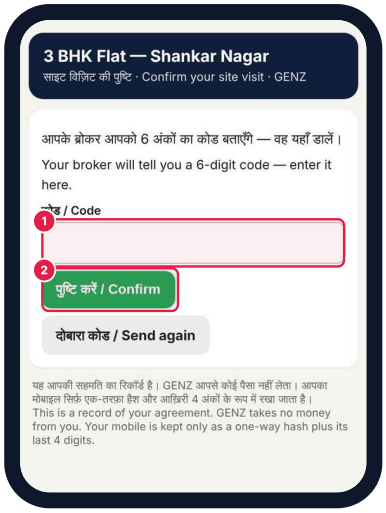

Step 2: buyer ko link bhejein

1. **Buyer must confirm first** — buyer pehle tick karega ki woh owner/builder se aapke bina seedha deal nahi karega, aur apna mobile code se confirm karega. Tab tak QR nahi khulta.
2. **Send on WhatsApp** (ya **Copy link**) — buyer ko link bhejein.
3. **Open Visit QR Pass** — pass dekhein. Jab buyer code maangega, code yahin dikhega.

2. **Right:** 6-digit visit code — QR na chale to yeh code.
3. **Right:** kahan scan hoga. Buyer yeh pass sirf property par pahunch kar dikhaye.

`Visit QR` screen (More → Today → Visit QR)

2. Broker-to-broker visits — har visit par `QR pass / Scan`. "Buyer not confirmed yet" = buyer ne abhi link par pushti nahi ki.
3. `Recently verified` — pakki ho chuki visits (OTP ya QR se).

> **Maker ≠ checker**
> Jisne visit book ki, woh khud use verify **nahi** kar sakta. Property ki taraf wala (owner ya listing broker) buyer ka QR scan karta hai ya OTP daalta hai.
